General science quarterly

SCIENCE EDUCATION

Official Publication of the National Association for Research in Science Teaching

VOLUME XV, 1930-1931

Issued four times a year; November, January, March and May
W. G. Whitman, Editor and Publisher, Salem, Massachusetts

NATIONAL ASSOCIATION FOR RESEARCH IN SCIENCE TEACHING

Editorial Board

Charles J. Pieper, *Chairman*, School of Education, N. Y. University.
Earl R. Glenn, New Jersey College of Education, Montclair, N. J.
W. G. Whitman, State Normal School, Salem, Massachusetts.

Associate Editors

Nature Study and Elementary Science:

Articles—M. R. Van Cleve, Board of Education, Toledo, Ohio.
Book Reviews—Florence Billig, Bd. of Ed., Sacramento, California.
Abstracts—Gerald S. Craig, Teachers College, Columbia University.

Junior High School Science:

Articles—Francis D. Curtis, School of Ed., U. of Mich., Ann Arbo
Book Reviews—R. K. Watkins, Univ. of Missouri, Columbia, Mo
Abstracts—W. L. Beauchamp, School of Educ., Univ. of Chicago.

High School Biology:

Articles—F. A. Riedel, Teachers College, Columbia University.
Abstracts—F. C. Jean, Colorado State Teachers College, Greeley.

High School Physics:

Articles—N. Henry Black, Harvard University, Cambridge, Mass.
Book Reviews—Ellsworth S. Obourn, John Burroughs Schoo Clayton, Missouri.
Abstracts—A. W. Hurd, Institute of School Experimentatio Teachers College, Columbia Univ., New York.

High School Chemistry:

Articles—H. A. Webb, George Peabody College for Teachers, Nashville, Tenn.
Book Reviews—Ralph E. Horton, Seward Park High Sc., N. Y. C.
Abstracts—Clarence M. Pruitt, Univ. of Alabama, University, Ala.

Supervision:

Articles—W. W. Knox, State Education Dept., Albany, N. Y.
Abstracts—Edward E. Wildman, State Bd. of Pub. Ed., Philadelphia.

Teacher Training:

Articles—J. O. Frank, State Teachers College, Oshkosh, Wis.
Book Reviews—H. A. Cunningham, 515 W. 121st St., New York City.
Abstracts—Ellis C. Persing, Sch. of Ed., Western Reserve Univ. Cleveland, O.

Research in Science Education:

E. R. Downing, School of Education, University of Chicago.
S. R. Powers, Teachers College, Columbia Univ., New York City.

Index to Volume XV

PAGE

Abstracts 61, 121
Adventures of a Little Boy in Molecule Land—*Barbara Osgood*.. 267
Air Pilots Should Know Elements of Meteorology 43
Atom, Shattering the 185
Bee's Load, The 145
Biological Sciences in the Traditional Liberal Arts College, The. Introductory—*George Nelson* 226
Biology Class Into a Nature Study Club, Organizing the—*Ethel Bush* 48
Biology Course, Organization of the High School—*E. E. Bayles*.. 75
Books, The New 65, 128, 196, 272
Botany as Preparation for Sequent Courses, An Evaluation of the Courses in Elementary—*Palmer O. Johnson*..... 201
Cartesian Diver—*A. W. Stewart* 183
Chemistry, Certain Vocabulary Problems in High School—*A. B. Kitzmiller* 33
Chemistry for 1921-1928, An Analysis of the College Entrance Board Examination in Elementary—*Jacob W. Boorstein*..... 91
Chemistry, Mathematics and First Year—*B. Clifford Hendricks*.. 115
Conservation 225
Copper—*Roy Krueger* 245
Dust Explosions 244
Discontinued Free Material for School Use—*Mary E. Mrose*..... 278
General Science Lesson Plan, A—*Carl H. Schmidt*..... 175
General Science Demonstration File, Benefits Derived from a—*Mary E. Parker* 44
General Science and Hygiene in the Junior High Schools of Massachusetts—*Walter G. Whitman* 215
High Land in the United States 158
Interest as a Factor of Achievement in Science—*A. W. Hurd*.... 54
Moth Killers Effective Only in Air-tight Space 174
Museum, The School—*May W. Smith*..... 111
National Association for Research in Science Teaching—Report of the Secretary-Treasurer 269
Nature and Science Course of Study, The Grand Rapids—*Helen K. Mackintosh* 149
Nature Study in the Primary Grades in the Detroit Public Schools, The Measurement of—*Manley E. Irwin*..... 23
Physics Class, Homemade Apparatus for the—*G. H. Hyde*..... 159
Physics Teachers Toward the Content of the High School Physics Course, An Investigation of the Attitude of—*G. W. Fox and D. L. Rich* 9
Program of the National Association for Research in Science Teaching 74c
Program of National Council of Supervisors of Elementary Science 74b
Pupil Errors in Photosynthesis and the Respiration of Plants—*Elliot R. Downing* 146

PAGE

Science Education, Field Course in Germany in 199

Science Education for the Teachers of Science in Secondary Education, What Constitutes a Desirable Program of Studies in—*Francis D. Curtis* 14

Science, Inspiration of 148

Science, International Language for 90

Science Interests of Junior High Schools Pupils—*C. H. Nettles*.... 219

Science for Teachers in Elementary Schools, A Technique for Developing Content for a Professional Course in—*Florence G. Billig* 82

Science Education for Teachers of Science in the Elementary Schools, What Constitutes a Desirable Program of Studies in—*E. Laurence Palmer* 101

Science Projects, Two Ninth Grade—*Thomas McClumpha*..... 181

Science Project—Little Journeys at Home—*J. N. Taylor*..... 232

Science Teachers' Meeting, New York State 90

Science Topics That Are of Interest and Use to Adults—*C. H. Nettels* 139

Student Achievement, Effects of School Instruction on—*A. W. Hurd* 239

Students' Attitudes Regarding Unfounded Beliefs—*Otis W. Caldwell and G. E. Lundeen* 246

Training Science Teachers for Secondary Schools—*Hanor A. Webb* 1

Water, Nature's Method of Purifying Polluted 127
